

A NICE DAY

Elegant and simple, the charm of Nice comes from its exceptional climate as well as its beauty. Even in the winter the café terraces are filled with people happily drinking and contemplating the ultra famous Promenade des Anglais. Its wonderful promenade, always flowered, follows the angel's bay with the clear blue sea and on the other side such luxury. The architecture of Nice can be astonishing with the wild exaggerations of the Belle Époque style or the Baroque influenced houses and Mansions on the hills of Mount Boron.
